

# Protect Local Taxpayers #KeepTheCap

New Yorkers are at risk of paying higher taxes or losing vital services under the Medicaid proposal in this year's executive budget proposal.

If counties are forced to shoulder more of the cost of Medicaid, they'll have no choice but to increase property taxes, reduce staff, or make cuts to services on which residents depend, including:

- ✦ ~~Veterans' services~~
- ✦ ~~Road maintenance and repair~~
- ✦ ~~Youth services~~
- ✦ ~~Public libraries~~
- ✦ ~~STOP-DWI initiatives~~
- ✦ ~~Meals on wheels and other senior services~~
- ✦ ~~Tourism promotion, and more...~~

## Protecting Local Taxpayers from higher Medicaid Costs

- 1** Counties oppose efforts to alter the local Medicaid cost control caps.
- 2** The Medicaid caps have helped counties stay under the tax cap and save local taxpayers money.
- 3** Any state Medicaid proposal must protect local taxpayers by keeping the caps in place.

Counties will work with State leaders and the Medicaid Redesign Team to address what is under local control and recommend solutions that are under state control.
